BROWNELL ROSES

HYBRID TEAS

BREAK O'DAY. HT. (The Brownells, 1937.) *Plant Patent applied for.* A robust plant with large, double flowers of orange-apricot, shaded with flesh tints; fragrant. Good foliage. 50 petals. It is remarkable for its strong growth, its fragrance, and for its huge clusters of flowers. A bedding Rose of exceptional merit. \$1.50 each.

LILY PONS. HT. (The Brownells, 1938.) *Plant Patent applied for.* Long-pointed buds open to large, very double flowers; center deep yellow shading to palest yellow and white. This Rose is remarkable for its vigor, handsome foliage, and profusion of flowers. This is a bedding Rose well worth acquiring and, improves with age. \$1.50 each.

CLIMBING

APRICOT GLOW. LC. (The Brownells, 1936.) *Plant Patent No. 200.* A truly magnificent Climber with medium-sized flowers of a light apricot color, shading yellow at the base, and produced in large clusters. Flowers are double, and nicely formed. \$1 each.

ELEGANCE. LC. (The Brownells, 1937.) *Plant Patent applied for.* The flowers are spectrum-yellow shading to pale yellow, deepening in color as they open. Carried on long stiff stems of Hybrid Tea form. Opens slowly, making this a long flowering Climber. The plant is very vigorous, with excellent foliage. \$1.50 each.

GOLDEN GLOW. LC. (The Brownells, 1936.) *Plant Patent No. 263.* The pure spectrum-yellow Hybrid-Tea-like flowers are 3½ to 5 inches in diameter and have Tea fragrance. Perfectly hardy and vigorous up to 15 feet or more, with attractive healthy foliage. Quantity of bloom outstanding. \$1.00 each.

MOON GLOW. LC. (The Brownells, 1936.) *Patent applied for.* Flowers long pointed bud, nearly white to straw yellow, mass bloom, very hardy. \$1.00 each.

GOLDEN CLIMBER (Mrs. Arthur Curtiss James.) LC. (The Brownells, 1933.) *Plant Patent No. 28.* Large, handsome, yellow blooms borne on a vigorous, glossy-leaved Climber. It flowers best on old canes. Very vigorous and mass bloomer. \$1.00 each plant.

GOLDEN ORANGE CLIMBER. LC. (The Brownells, 1937.) *Plant Patent No. 96.* Large, semi-double flowers in delicate shades of yellow and orange, informally waved and crinkled. Having long stems it is also exquisite as a cut-flower. Plant is vigorous and hardy. One for the connoisseur. \$1.50 each.

PEGGY ANN LANDON. LC. (The Brownells, 1937.) *Plant Patent applied for.* Buds of sunflower-yellow-orange, fade resistant. Flowers of good size are borne singly or in clusters on long stems. Plant vigorous, with strong leathery foliage and abundant bloom. Very early bloomer. \$1.50 each.

GOLDEN PYRAMID. LC. (The Brownells, 1939.) *Patent applied for.* Large double Cadmium yellow flowers. Fade resistant and will obtain height of fifteen to twenty feet. Glossy green foliage and free blooming. \$1.50 each.

CREEPING OR TRAILING

CORAL CREEPER. LC. (The Brownells, 1937.) *Plant Patent applied for.* A lovely shade of apricot-orange, fading to light pink, contrasting pleasantly with the deep red buds of opening flowers. Large, semi-double flowers on stiff, upright stems. \$1 each.

(Continued on Page 4)

FREDERICK S. PECK. LC. (The Brownells, 1937.)
Plant Patent applied for. Semi-double, deep grenadine-pink blooms, with yellow tints in center, carried singly and in clusters well above the attractive foliage. The color is unique in creepers. \$1 each.

LITTLE COMPTON CREEPER. LC. (The Brownells, 1937.) *Plant Patent applied for.* Single, deep rose-pink, in large, open clusters literally covering the dark shiny foliage. A lovely color and when in full flower is unsurpassed by any other creeper. \$1 each.

STANDARD VARIETY OF ROSES AT 75c

RED

E. G. Hill. Immense, free growing.

Etoile de Hollande. Large, one of the finest.

McGredy's Scarlet. Vivid, rose-red, 35 petals.
